OVERVIEW

Techniques in HPB Surgery

This meeting explores the variety of surgical approaches for simple and complex HPB surgery. The emphasis is on “how I do it” and video heavy!

FRIDAY: Liver and pancreas techniques explored in depth... an emphasis on tips and tricks, for liver resection and pancreas resection and reconstruction. Open, laparoscopic and robotic methods will be demonstrated.

FRIDAY NIGHT: Conference Gala Dinner at the International College of Management, Sydney with a Surprise Guest!

SATURDAY SESSION: Gall bladders, bile ducts and free papers.

2 Post Conference Workshops also available

SUNDAY WORKSHOP
9:00am – 12:00am
Laparoscopic CBD Exploration Dry Workshop
Royal North Shore Hospital Skills Centre (Les Nathanson, Director)

MONDAY WORKSHOP
9:00am – 5:00pm
Robotic HPB Surgery with Live Demonstrations’ Workshop
Royal Brisbane & Women’s Hospital (Nick O’Rourke, Director)

Annual Meeting for ANZHPBA 2013

Techniques in HPB Surgery... Tips, Tricks, and Evidence

Friday 9 and Saturday 10 August 2013
Novotel Sydney Manly Pacific

International Faculty
- David Kwon, Seoul
- Eric Lai, Hong Kong
- Shawn MacKenzie, Portland, Oregon

Themes
- Robotic HPB surgery
- Laparoscopic tips and tricks
- Extended resection of liver and pancreas
- New frontiers in cholecystectomy

www.anzhpba.com
WELCOME FROM THE PRESIDENT

Ladies and Gentlemen,
2013 sees two meetings for our organization! Manly in August is our standalone event, showcasing the latest in instrumentation and technique. In early October, in Melbourne, the emphasis is on cancer management, as we combine with GESA, ANZGOSA, CSSANZ, and AGITG as part of the Federation of GI societies.

For Sydney, our Convenor has put together a broad program, demonstrating the surgical progress achieved in HPB surgery over the last few years. Is robotic surgery going to take off? Is there a role for extended resections in pancreas cancer? Who does the best cholecystectomy in Australasia? You are most welcome to come and find out!

Chris Christophi
President of ANZHPBA
Austin Hospital, Melbourne, Australia

WELCOME FROM THE CONVENOR

The pace of technologic advancement astounds us all, and HPB surgery excites like never before. This August, in beachside Sydney, the ANZHPBA is pleased to offer the opportunity for surgeons to catch up on what’s happening, with an expose of the latest in technology and technique, with experts from here and abroad demonstrating the wide gamut of HPB surgery - open, laparoscopic and robotic!

We are privileged to welcome Shawn MacKenzie, Eric Lai and David Kwon as part of our international faculty. Friday sees sessions devoted to liver and pancreas, with Saturday devoted to cholecystectomy in the morning and bile duct stones in the afternoon. Free paper submissions close soon. There are glamorous prizes for best oral, and best poster.

Save the date, and tell your mates...

Nick O’Rourke

MEDICAL COMPANIES
CHOON HYUCK DAVID KWON
David Kwon is an Associate Professor at the Samsung Medical Center, Sungkyunkwan University, Seoul, Korea. He is an expert in liver transplantation, especially living donor liver transplantation, and has much experience in laparoscopic liver resections with over 300 cases performed in the last 4 years. He recently started a living donor laparoscopic hepatectomy program, including both left lateral and right sided livers. He is a board member of the The Korean Association of HBP Surgery, the Korea Society for Transplantation, and the Korean Liver Transplantation Study Group. He is also on the editorial boards of the Korean Society for Transplantation, and the Journal of the Korean Surgical Society, and is a key member of the Korean Laparoscopic Surgery Study Group.

ERIC LAI
Eric Lai is currently Consultant of the Department of Surgery, Pamela Youde Nethersole Eastern Hospital. He also serves as Research Director for the Department. His clinical research has focused on liver, bile duct, and gallbladder cancers, and minimally invasive therapy for HBP diseases. He has published more than 100 peer-reviewed publications and more than 20 book chapters. Outside of the hospital, he also currently serves as the council member of the Asian-Pacific Hepato-Pancreato-Biliary Association (APHPBA), Hong Kong representative in membership committee of the International Hepato-Pancreato-Biliary Association (IHPBA), and editorial board members of several peer-reviewed journals.

SHAWN MACKENZIE
Shawn MacKenzie is head of liver and pancreas surgery at Kaiser Sunnyside Medical Centre in Portland, Oregon. He completed his HPB fellowship in Toronto and developed robotic pancreatic surgery in Minneapolis. He has a wide interest in HPB surgery, but focuses on robotic approaches and has convened several robotic surgical meetings in the USA.

WORKSHOPS  Numbers for both Workshops are strictly limited to 25 delegates

LAPAROSCOPIC CBD EXPLORATION
(directed by Les Nathanson)
$ 300 per delegate
Sunday 11th August, 09:00 – Noon
Royal North Shore Hospital, Sydney
Venue: Sydney Clinical Skills & Simulation Centre

GETTING THERE:
The Centre is located on Reserve Rd at Royal North Shore Hospital, St Leonards, Sydney, Australia. You will find us on Level 6 of the Kolling Building, the new Research and Education Facility.

PUBLIC TRANSPORT:
TRAIN: Alight from the train at St. Leonards station and walk approx 200 metres on the Pacific Highway (west) or along Herbert Street (north) to the hospital entrance. Please refer attached RNSH Street map.
BUS: There are many buses that deposit/collect people on the Pacific Highway near the hospital (outside the shops heading north, and outside St Leonards’s railway station heading south).
These include:
• [200] Bondi Junction / Chatswood
• [114] Manly / RNSH / Chatswood. This bus stops inside the hospital campus
• [289/291] QVB / Chatswood

PRIVATE TRANSPORT:
By car enter off the Pacific Highway or by exiting the Gore Hill Freeway, into Reserve Road (which bisects the campus).
Parking is available in the hospital multi-storey car park from Level 1 up (ground level 3 hour restriction).

EXTRA INFORMATION:
Participants will be taken through the basic steps of laparoscopic transcystic bile duct exploration on multiple simulators. Laparoscopic cholecystectomy will be demonstrated, as will novel techniques for the retrieval of impacted stones.

CLICK HERE to download a map

ROBOTIC HPB SURGERY WITH LIVE DEMONSTRATIONS
(directed by Nick O’Rourke)
$ 600 per delegate
Monday 12th August, 09:00 – 17:00
The Royal Brisbane & Women’s Hospital
Venue: Operating Theatre Conference Room, 3rd floor Ned Hanlon Building

GETTING THERE:
The Royal Brisbane and Women’s Hospital is located at Herston, four kilometres north of Brisbane’s central business district. The main entrance and the Emergency Department entrance are both accessed from Butterfield St. Access from Herston Rd is more convenient for visitors to the Mental Health Centre or Block 7.

PUBLIC TRANSPORT:
BUS & TRAIN: The RBWH Busway Station is a major bus route with frequent transport during the day. The majority of buses passing through the RBWH station will make stops at the Royal Children’s Hospital and King George Square Bus Station in the Brisbane CBD.
The nearest railway stations are Brunswick Street station in Fortitude Valley or Bowen Hills station. Both stations are about 1km walk to the Royal Brisbane and Women’s Hospital.
For public transport information, call the TransLink Hotline phone number on 131230 or visit translink.com.au/.

PRIVATE TRANSPORT AND TAXI:
CAR: There are three multi-storey carparks available for patient, visitor and staff use on the Herston campus. These are all undercover and operate 24 hours a day, 7 days a week. As they are privately owned, charges will apply at each carpark.
TAXI: The closest taxi rank is located at the main entrance to the Royal Brisbane and Women’s Hospital on Butterfield Street. This rank is close to the transit lounge and discharge centre for people being admitted to or discharged from the hospital.
Another taxi rank is located outside the Queensland Institute of Medical Research (QIMR) building on Herston Road. There are also drop-off areas near the Joyce Tweddell building and the Mental Health Unit. Free taxi phones are located on the Ground Floor of the Ned Hanlon building, the Dr James Mayne building and on level 4 of the Joyce Tweddell building.

EXTRA INFORMATION:
This will be a combination of didactic lectures, video demonstrations and live surgery on liver and pancreas.
